

Corporate Overview

PDS Gaming LLC (“PDS”) is an innovative finance and lease company that specializes in customized financing solutions including equipment leasing, project and corporate financing and manufacturing vendor financing programs for the gaming industry. In the 28 year history of PDS we have built customized financial arrangements with many of the world’s strongest institutional funds and banks in order to bring their financial strength to bear for PDS’ gaming industry clients. This enables PDS to offer attractive rates, flexible terms and steady access to capital in many forms, including off and on-balance sheet leasing, vendor financing and traditional secured lending.

PDS has operated in 20 countries worldwide, managed and sold over 50,000 gaming devices and successfully completed hundreds of finance transactions. Many of the iconic casinos have been or are currently PDS clients, including Caesars Palace, MGM Resorts International, Mohegan Sun, Foxwoods and the Seminole Hard Rock Casinos.

PDS can provide new or reconditioned gaming devices and we maintain an inventory of late model gaming devices and software in our 22,000 square foot facility. Each device is carefully reconditioned to match the specific requirements of the buyer, including bill validator, printer, player tracking brackets and custom laminate. Whether the equipment is new or reconditioned, PDS offers a number of exclusive and custom financing programs, in addition to long term revenue participation agreements.
